Four Decades of Performance

Since 1975, Omega Flex, Inc. has led the piping industry with its high-quality construction and commitment to exceed the industry's product and safety standards.

- With over 100 patents, the Company's philosophy is not to wait for mandates, but to lead the industry by introducing the best products.
- In 1999, OmegaFlex was the first CSST manufacturer to mandate the bonding of its yellow-jacketed TracPipe® Corrugated Stainless Steel Tubing (CSST) in its installation guide.
- In 2004, the Company developed TracPipe AP CSST (formerly TracPipe CounterStrike), which contains all of the innovative features of TracPipe® CSST plus a built-in arc resistant jacket that eliminates the need for additional bonding.
- In 2011, OmegaFlex became the only CSST manufacturer to transition from its highly successful yellow CSST product "TracPipe®" CSST and now only sells its innovative black-jacket product TracPipe AP CSST throughout the US market.
- In 2012, OmegaFlex was a sponsor of NSF-UC San Diego's earthquake testing program. The flexibility of TracPipe System CSST withstood the worst seismic activity simulated without any failures, leaks or damage. Meanwhile black iron pipe, which was installed next to TracPipe System CSST, fractured in the same test.

TracPipe System CSST is also:

- Listed by both CSA and ICC Evaluation-Services-PMG 1058 and evaluated by the International Association of Plumbing and Mechanical Officials (IAPMO) ER 0227 for lightning resistance without additional bonding (unless required by local codes).
- Compliant with fuel gas codes in all 50 states.
- Compliant with all model codes, including all the National Fuel Gas Code (NFPA), International Fuel Gas Code and International Residential Code (ICC), and the Uniform Plumbing Code (IAPMO).
- Listed to the national consensus standard for CSST (ANSI LC 1-2016) including all requirements for arc-resistant conductive jackets.
- Underwriters Laboratories (UL) listed for 1, 2 and 4 hour through penetration fire stop systems without removal of the conductive jacket.

TracPipe System CSST in seismic test rig.

- The 2022 ICC-ES ESR-4565 listing represents the seismic certification by shake-table testing for TracPipe System CSST flexible gas piping systems as an alternative to code-prescribed requirements. Omega Flex tubing systems sustained severe earthquake simulations that surpassed all the intensities and seismic forces ever recorded as well as the design forces specified in the current building codes. The ICC seismic certifications for the three Omega Flex products (TracPipe AP, MediTrac®, and DoubleTrac®) are consistent with the technical requirements of the major US seismic codes and standards including: International Building Code, the ASCE-7 Standard, FEMA 461 as well as the City of Los Angeles Department of Building Safety, and the State of California Division of State Architect and OSHPD.

Tracpipe® System CSST Piping for Natural Gas and Propane

The flexibility and long lengths of Tracpipe System CSST make it perfect for remodel/repair work. It can be pulled like wire, which minimizes the need to remove and replace walls, while at the same time potentially reducing both construction cost and shortening lead times.

TracPipe AP features a single robust protective jacket over a non-annealed CSST, which offers enhanced crush resistance. The superior crush resistance of TracPipe AP means that it lays straighter, is simpler to cut and pulls easier in new home construction.

TracPipe Flexible Gas Piping

Corrugated Stainless Steel 300 Series with Polyethylene Jacket

Plywood Reels for Packaging

Description	Part Number	Size	Reel Length	Lb/Reel
TracPipe – 3/8″	**FGP-SS4-375-250**	3/8″	250 ft/reel	29

Self-Flaring Fitting

TracPipe System fittings are the self-piloting fittings that attach TracPipe System to traditional gas fittings and appliances. No special tools or additional parts required.

TracPipe System Fittings and Accessories

Straight Mechanical Fitting Brass

Fitting Sizes 1¼", 1½" and 2" are sold individually

Split Rings
Bronze (3/8" - 3/4")
Stainless Steel (1" - 2")

Female Straight Fitting Brass

Coupling Insert Brass

Flange Mount Fittings Steel

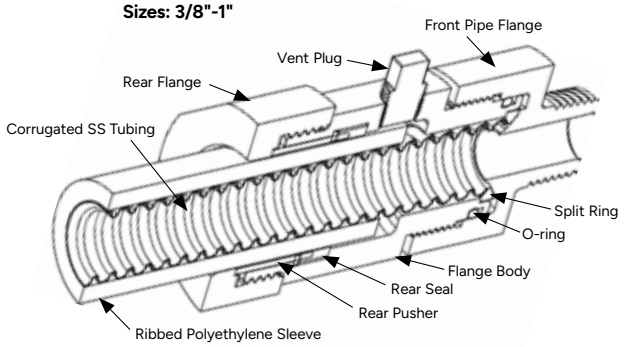
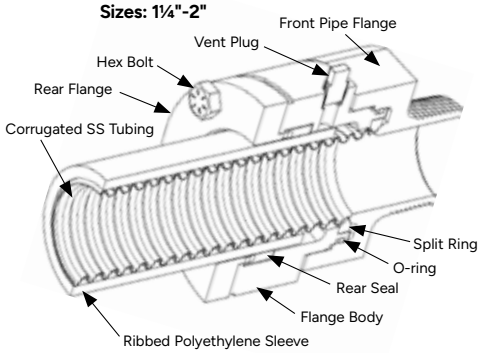
TracPipe® PS-II Underground Gas Piping

TracPipe PS-II is a pre-sleeved gas installation system for underground, rooftop, or exterior wall applications that is more cost-effective and easier to install.

Sizes: 3/8"-1"



Sizes: 1¼"-2"



TracPipe® PS-II Underground Gas Piping PATENTED - Improved

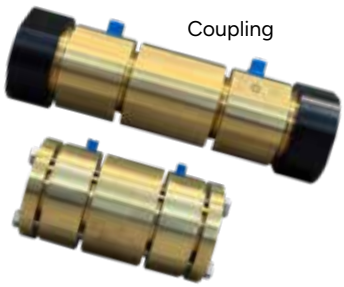
Description	Part Number	Size	Reel Length	Lb./Reel
TracPipe PS-II 3/8"	**FGP-UGP-375-250**	3/8"	250 ft./reel	57.5
TracPipe PS-II 1/2"	**FGP-UGP-500-250**	1/2"	250 ft./reel	82.5
TracPipe PS-II 1/2"	**FGP-UGP-500-100**	1/2"	100 ft./reel	33
TracPipe PS-II 3/4"	**FGP-UGP-750-250**	3/4"	250 ft./reel	107.5
TracPipe PS-II 3/4"	**FGP-UGP-750-100**	3/4"	100 ft./reel	43
TracPipe PS-II 1"	**FGP-UGP-100-250**	1"	250 ft./reel	142.5
TracPipe PS-II 1"	**FGP-UGP-100-100**	1"	100 ft./reel	57
TracPipe PS-II 1¼"	**FGP-UGP-125-150**	1¼"	150 ft./reel	137
TracPipe PS-II 1½"	**FGP-UGP-150-150**	1½"	150 ft./reel	150.5
TracPipe PS-II 2"	**FGP-UGP-200-150**	2"	150 ft./reel	220

Male Adapter

Male Adapters

Description	Part Number	Size	Pkg.Qty.	Lb.
TracPipe System PS-II Male Adapter – 3/8"	**FGP-UGF2-375**	3/8" NPT Male	25/box	0.9
TracPipe System PS-II Male Adapter – 1/2"	**FGP-UGF2-500**	1/2" NPT Male	20/box	1.15
TracPipe System PS-II Male Adapter – 3/4"	**FGP-UGF2-750**	3/4" NPT Male	16/box	1.4
TracPipe System PS-II Male Adapter – 1"	**FGP-UGF2-1000**	1" NPT Male	9/box	1.85
TracPipe System PS-II Male Adapter – 1¼"	**FGP-UGF2-1250**	1¼" NPT Male	4/box	5.15
TracPipe System PS-II Male Adapter – 1½"	**FGP-UGF2-1500**	1½" NPT Male	2/box	6.45
TracPipe System PS-II Male Adapter – 2"	**FGP-UGF2-2000**	2" NPT Male	2/box	8.25

Coupling



Couplings

TracPipe System PS-II Coupling – 3/8"	**FGP-UGC2-375**	3/8"	25/box	1.55
TracPipe System PS-II Coupling – 1/2"	**FGP-UGC2-500**	1/2"	20/box	2.1
